

Haematococcus workshop 2019

MARCH 27
MARCH 28

Programme

- 20:00** Welcome dinner
During dinner: Networking and 'Tour de table' with one minute presentation of each participant with several rounds.
- 08:00** Opening presentation – All about *Haematococcus*: Sammy Boussiba
- 09:00** Panel #1 – Production constrains: from contamination to stress induction
- 10:00** Panel #2 – *Haematococcus* biorefinery: what else beyond astaxanthin?
- 11:00** Coffee-break
- 11:30** Panel #3 – Astaxanthin: Health benefits and clinical studies
- 12:30** Sandwich lunch and networking opportunity
- 13:30** Panel #4 – Regulatory: *Haematococcus* and astaxanthin – NAXA
- 14:30** Panel #5 – Analytics to guarantee the bio-origin of astaxanthin
- 15:30** Coffee-break
- 15:45** Panel #6 – New product trends: synergies with astaxanthin
- 16:45** Workshop conclusions
- 17:00** Workshop closure

Why?

The European Algae Biomass Association (EABA) aims to promote a strong link between science, technology and business in the algae biomass sector. *Haematococcus* production for astaxanthin is the most valuable microalgae business activity.

It is very relevant to bring together the main stakeholders for knowledge exchange and collaboration.

The workshop has a compact format with a panel-based organization. Each panel has a specific topic and a duration of 1 hour; 20 minutes for the presentation of the topic and 40 minutes for discussion and conclusions. Each panel will have an invited chair, and the participants in the panel will be volunteers from the participant group. There will be minutes from the event with the key conclusions for each panel.

Outcomes

- Wish list definition of research needs
- Regulatory needs statement formulation
- Wish list for EABA actions related with *Haematococcus* and astaxanthin
- Identification of emerging trends

Location Thon Hotel EU, Brussels

Organization DLG Benelux

Fees (excluding of VAT)

€399 – EABA members (in good standing)

€599 – Regular entrance fee

€10 – dinner on March 27

80 participants expected

www.algaeworkshops.org

Workshop Chair

Sammy Boussiba – Vice-President of EABA, Ben Gurion University, Israel. Leading world expert in microalgae biotechnologies.

Workshop coordination

Jean-Paul Cadoret – President of EABA

Vitor Verdelho – General Manager of EABA;

Council Member of the Executive Committee of ISAP - International Society for Applied Phycology;

Member of the Board A4F – Algae for Future, SA, Portugal

Workshop logistics

Christie de Vrij – Building on Events – hotel and onsite

Paulien Hoftijzer – DLG Benelux – registration, communication and administration

EABA Members involved in commercial production

Algamo, s.r.o.	Czech Republic
Algelif, AS	Iceland, Bogatrod
Algatechnologies, Ltd	Israel, Ketura
AstaReal, AG	Sweden, Gustavberg
